## **iDashboards Releases Version 5.0**

Latest version brings “business intelligence (BI) for the masses”

**Troy, MI and Chicago, IL – March 12, 2007 – iDashboards**

([www.iDashboards.com](http://www.iDashboards.com)), the leader in Business Intelligence dashboards, announced today the availability of version 5.0 at the Gartner Business Intelligence Summit.

iDashboards is an enterprise dashboard application helping companies leverage their information assets through visually rich, real-time, and personalized Business Intelligence dashboards.

The latest features in iDashboards 5.0 include:

- **Connectivity to Excel spreadsheets** – employees no longer have to email Excel spreadsheets back and forth, they can view the data online, in rich presentation format
- **Full geographic support** – data can be represented in maps whether by county, state, country, continent, and/or custom built maps and regions
- **Enhanced Visual Intelligence** – chart library now includes bubble charts, configurable speedometer dials, metrics chart with option to represent Euro symbol (€), and new transparent legends
- **Customization** – users can create customized presentation formats, including flow charts, images and floor plans displaying color-coded metrics

- **iDashboards Portlet** – ability to embed interactive dashboards as Portlets within any JSR 168 compliant portal such as BEA WebLogic, IBM WebSphere, Jakarta Pluto and Vignette

“When investigating dashboard technology, we had a few requirements of the product – ease of use, affordability, intuitiveness and compatibility with Excel. iDashboards was able to deliver on all fronts,” said Don Anderson, Assistant Controller, Supplemental Health Care.

###

#### **About iDashboards**

Through its award-winning engineering and patented technology, iDashboards helps companies leverage information assets through visually rich, real-time, and personalized business intelligence dashboards to analyze, track, and drill-down through a wealth of information. Global enterprises such as Lockheed Martin, Unisys, ADP, and Georgia Pacific are making quicker, well-informed business decisions with the help of iDashboards. The company is privately held and headquartered in Troy, Michigan. To find out more about iDashboards' solutions, please call (248) 952-0840 or visit [www.idashboards.com](http://www.idashboards.com).
