iDashboards
A TruOI Software

From Data to Decisions:

How **North Star Manufacturing** Unifies KPIs Across Four Canadian Facilities

North Star Manufacturing, **a Cornerstone Building Brands division**, has utilized iDashboards for over 10 years to unify data, monitor real-time KPIs, and strike a balance between productivity and quality.

Real Results

Live KPI Visibility

Dashboards refresh every 5 minutes with clear red/yellow/green status indicators—instantly showing progress toward production targets.

Balanced Productivity & Quality

Tracks units per man-hour alongside 90-day failure rates to protect both throughput and product quality.

Engaged Workforce

Floor operators, team leads, and executives rely on dashboards daily to hit targets and maintain safety and service standards.

Data-Driven Leadership

Metrics are reviewed in leadership meetings to guide staffing, shift adjustments, and continuous improvement initiatives.

READY TO LEAD SMARTER?

Discover how iDashboards can help your organization unify data, monitor KPIs in real time, and engage every level of your workforce.
